NURSERY ENGLISH

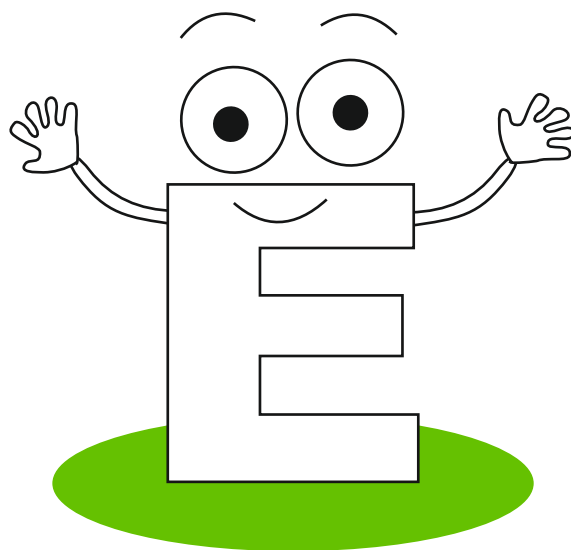

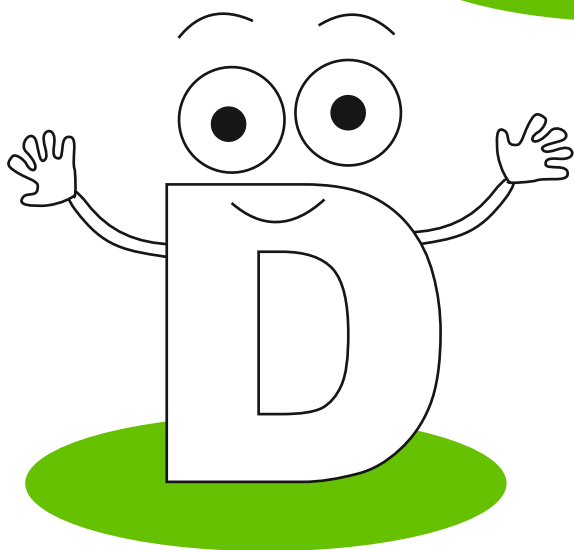

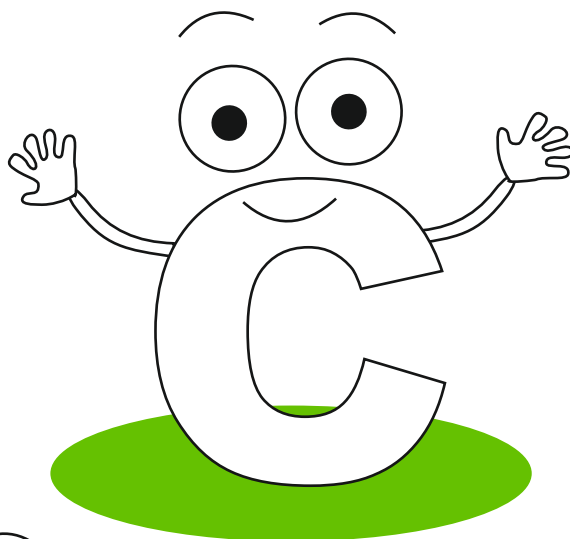

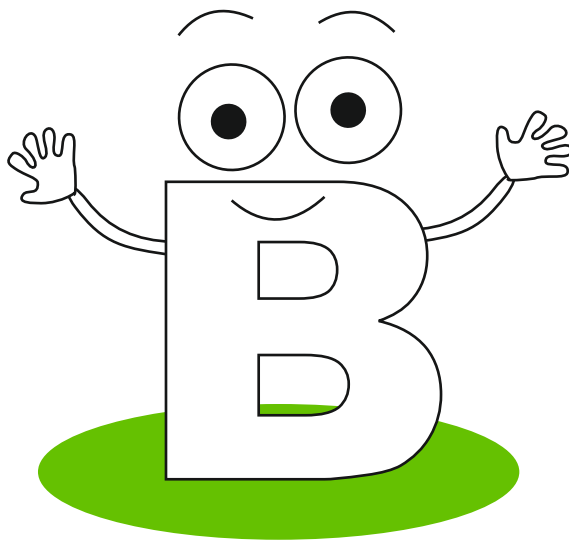

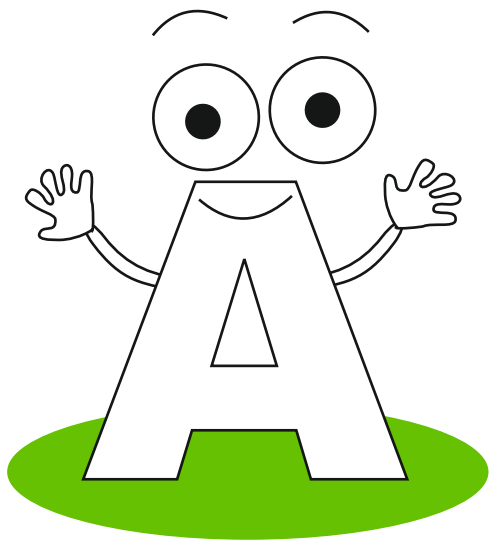

For an overall development of the child in early years, the LSRW (Listen, Speak, Read & Write) method of learning is age old, but is still relevant in modern days of today – our book is an attempt towards building the age-appropriate motor skills, cognitive skills, language skills, mathematic / arithmetic skills and most importantly the age-appropriate behavior, values, character, attitude, aptitude and knowledge.

We have brought about an integrated- interrelated- interconnected approach (3i) towards all the subjects of English, Mathematics and General Awareness.

3. Row, Row, Row Your Boat

Row, row, row your boat,

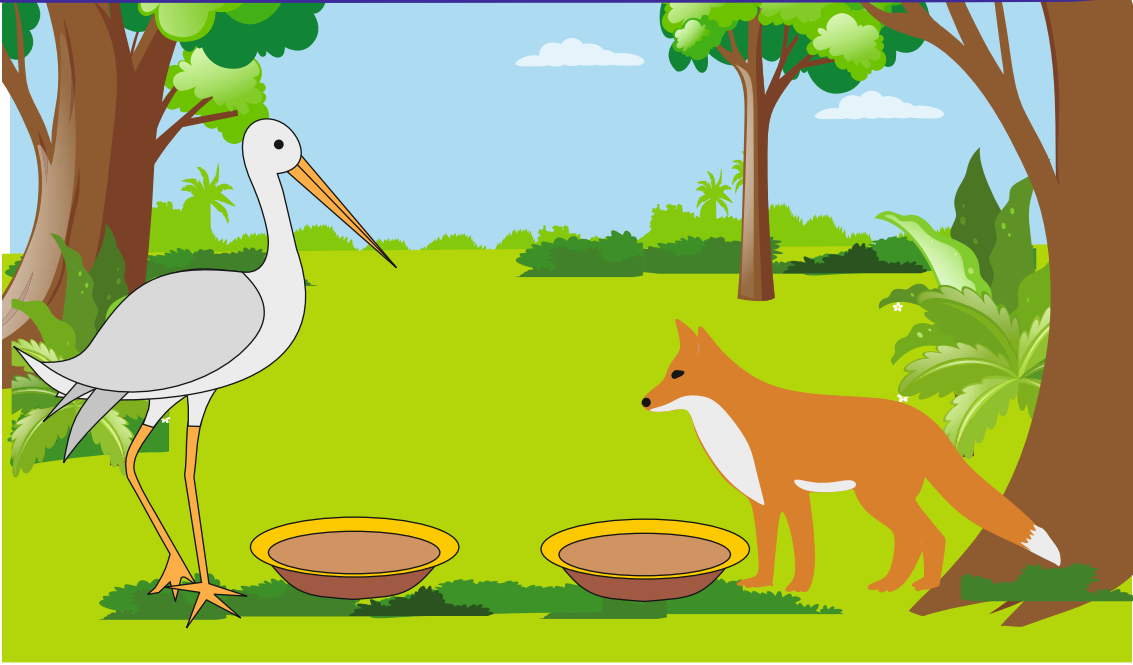

Gently down the stream.

Merrily, merrily, merrily, merrily,

Life is but a dream.

7. A Fox and a Crane

Once a Fox and a Crane became friends. So, the Fox invited the Crane to dinner. The Crane accepted the invitation and reached the Fox's place at sunset.

The Fox had prepared soup for his friend. But as we all know that foxes are cunning by nature, He served the soup in flat dishes.

The fox enjoyed his the soup using his tongue. But the Crane couldn't enjoy it at all with his long beak and had to get back home hungry.

The naughty fox laughed at the crane.

After few days, the Crane invited the Fox to dine with him.

The Fox reached his place well in time. The Crane gave him a warm welcome and served the soup in a jug with a long and narrow neck. So, the Crane enjoyed the soup with great relish using his long beak.

The Fox's mouth couldn't reach the soup through the narrow neck of the jug. He had to return home hungry. Now he realized that he had been repaid for his behaviour with the Crane.

Moral: One should not try to make fun of the other's limitations
