For an overall development of the child in early years, the LSRW (Listen, Speak, Read & Write) method of learning is age old, but is still relevant in modern days of today – our book is an attempt towards building the age-appropriate motor skills, cognitive skills, language skills, mathematic / arithmetic skills and most importantly the age-appropriate behavior, values, character, attitude, aptitude and knowledge.

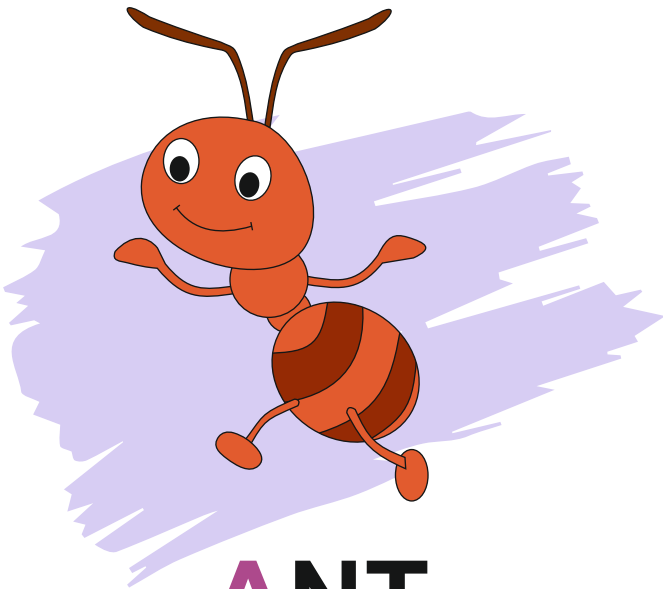

We have brought about an integrated- interrelated- interconnected approach (3i) towards all the subjects of English, Mathematics and General Awareness.

One day a peacock (🦚) met a crane (🦢) and said, "So sorry for you. You have so dull feathers."

Look at the fine colours of my feathers."

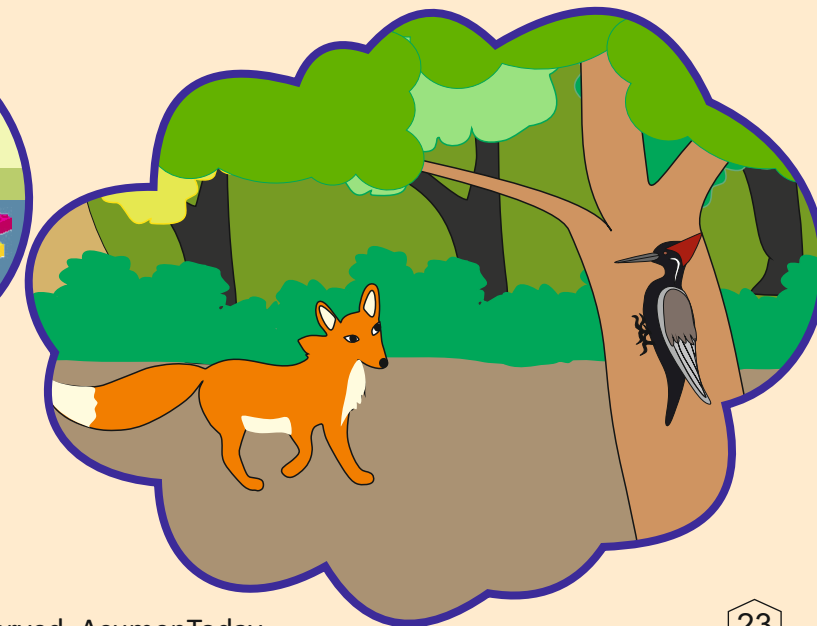

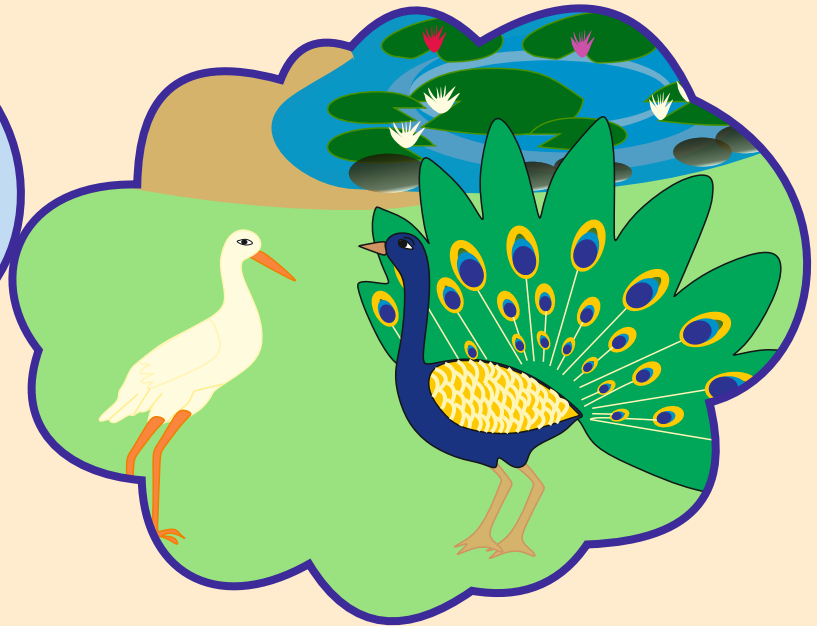

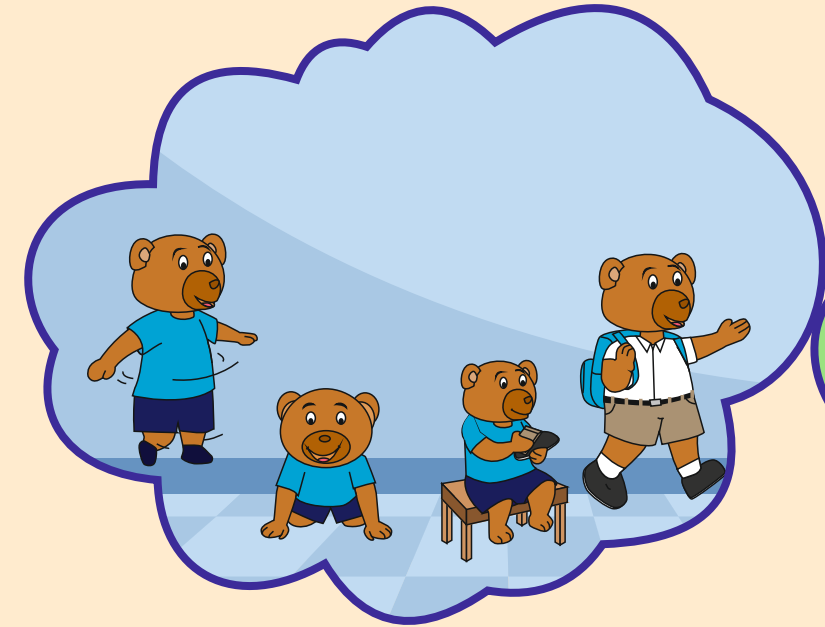

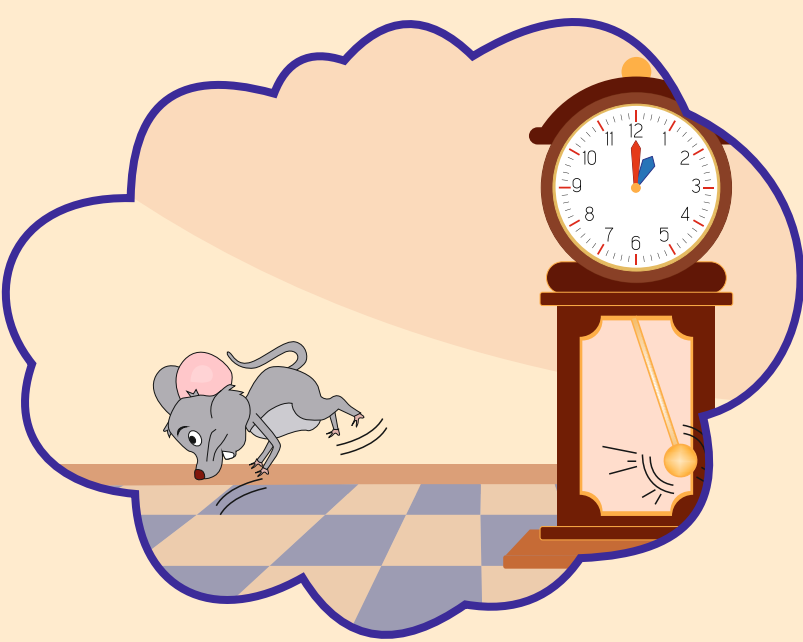

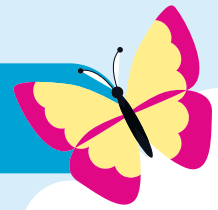

"Well!" replied the crane, "your feathers are brighter than mine.

But whereas I can fly high up into the sky, all you can do is to strut about on the ground."

Moral of the story: Never find fault with others.
